

# Contents

<b>Preface</b>	iii	<b>Chapter 6: Prion Disorders</b>	<b>281</b>
<b>Chapter 1: Introduction</b>	<b>1</b>	Introduction to Prion Diseases	282
Introduction	2	<i>Creutzfeldt-Jakob Disease</i>	
Apoptosis and Neurodegeneration	4	Sporadic Creutzfeldt-Jakob Disease	287
The Role of Oxidative Mechanisms in Neurodegenerative Diseases	8	Familial Creutzfeldt-Jakob Disease	298
Abnormal Protein-Protein Interactions: Underlying Mechanisms of Diverse Neurodegenerative Diseases	11	Iatrogenic Prion Disorders	307
The Ubiquitin Pathway, Neurodegeneration and Brain Function	14	Variant Creutzfeldt-Jakob Disease	310
The Genetics of Neurodegeneration	17	Gerstmann-Sträussler-Scheinker Disease	318
Alzheimer's Disease and Ageing	23	Fatal Insomnia: Familial and Sporadic	326
<b>Chapter 2: Alzheimer's Disease and Ageing</b>	<b>23</b>	Kuru	333
Alzheimer Type Dementia	24	In Vivo and In Vitro Models of Prion Disease	335
Genetics of Alzheimer's Disease	40	Frontotemporal Degeneration	339
Neuropathology of Alzheimer's Disease	47	<b>Chapter 7: Frontotemporal Degeneration</b>	<b>339</b>
Plaque-predominant and Tangle-predominant Variants of Alzheimer's Disease	66	Frontotemporal Degeneration: Introduction	340
Molecular Pathogenesis of Alzheimer's Disease	69	Frontotemporal Lobar Degeneration	342
Alzheimer Animal Models: Models of Ab Deposition in Transgenic Mice	74	<b>Chapter 8: Motor Neurone Disorders</b>	<b>349</b>
Tauopathies	81	Amyotrophic Lateral Sclerosis	350
<b>Chapter 3: Tauopathies</b>	<b>81</b>	Primary Lateral Sclerosis	369
Introduction to the Tauopathies	82	Spinal Muscular Atrophy	372
Frontotemporal Dementia and Parkinsonism Linked to Chromosome 17 Associated with Tau Gene Mutations (FTDP-17T)	86	Other Neurodegenerative Disorders	377
Progressive Supranuclear Palsy (PSP) or Steele-Richardson-Olszewski Disease	103	<b>Chapter 9: Other Neurodegenerative Disorders</b>	<b>377</b>
Corticobasal Degeneration	115	Other Neurodegenerative Disorders: Introduction	378
Pick's Disease	124	Inherited Amyloidoses and Neurodegeneration: Familial British Dementia and Familial Danish Dementia	380
Argyrophilic Grain Disease	132	<i>Neuroaxonal Dystrophies</i>	
Parkinsonism-dementia Complex of Guam	137	Neuroaxonal Dystrophies	386
Postencephalitic Parkinsonism	143	Infantile Neuroaxonal Dystrophy (Seitelberger Disease)	390
Transgenic Animal Models of Tauopathies	150	Neurodegeneration with Brain Iron Acculation, Type 1 (Hallervorden-Spatz Disease)	394
Synucleinopathies	155	Familial Encephalopathy with Neuroserpin Inclusion Bodies	400
<b>Chapter 4: Synucleinopathies</b>	<b>155</b>	Neuronal intranuclear inclusion disease	404
Introduction to Synucleinopathies	156	<b>Contributors</b>	<b>407</b>
<i>Lewy Body Disorders</i>		<b>Acknowledgments</b>	<b>412</b>
Parkinson's Disease	159	<b>Index</b>	<b>413</b>
Dementia with Lewy Bodies	188		
Lewy Bodies in Conditions Other Than Disorders of $\alpha$ -Synuclein	200		
Multiple System Atrophy	203		
Experimental Models of Synucleinopathies	215		
Trinucleotide Repeat Disorders	225		
<b>Chapter 5: Trinucleotide Repeat Disorders</b>	<b>225</b>		
Introduction to Trinucleotide Repeat Disorders	226		
Huntington's Disease	229		
Spinocerebellar Ataxias	242		
Friedreich's Ataxia	257		
Dentatorubral-pallidoluysian Atrophy	269		
Spinal and Bulbar Muscular Atrophy	275		
Prion Disorders	281
